

# Business Fibre NBN Broadband

## CRITICAL INFORMATION SUMMARY INFORMATION ABOUT SERVICE

### SERVICE DESCRIPTION

The Business Fibre plans are Internet service provided over the National Broadband Network (nbn™) (FTTP, FTTB, FTTN, FTTC, HFC or Fixed Wireless) and are available in nbn enabled areas. NBN availability can be checked using our Rollout Map [commander.com.au/internet/nbn/nbn-rollout-map](http://commander.com.au/internet/nbn/nbn-rollout-map).

### MINIMUM CONTRACT TERM

24 Month

### KEY DETAILS

The product has no bundling requirements. The NBN Broadband plans include 300GB for the NBN 300 and Unlimited data for the Unlimited plan. Optional Enhanced Serviced Level Agreements (SLAs) available for an additional \$17.00 per month, Commander Standard Form of Agreement and Acceptable Use Policy applies to this plan, the terms of which can be found at [commander.com.au/legal/customer-terms](http://commander.com.au/legal/customer-terms).

Your data allowance includes uploads and downloads. Your unused data allowance expires monthly. If you use all of your included data within a billing cycle, the speed will be limited to 2Mbps until the next billing cycle commences. Connection Tier refers to the type of nbn™ connection installed at the customer's premises. For more information about these tiers, please visit our website [commander.com.au/nbn/faqs](http://commander.com.au/nbn/faqs). For FTTB, FTTC & FTTN customers, until your service is connected we are unable to confirm your maximum attainable speed. If your line does not support your

chosen connection tier we will inform you and offer you alternative options.

### STANDARD INSTALLATION REQUIREMENTS

Standard installations are completed without charge to you. Non-standard, additional or subsequent installations including but not limited to NBN Professional Install or Valet Offerings may require you to pay additional charges. Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility.

If you're in a newly constructed building and not already connected to the nbn, nbn Co may charge you a once-off New Development charge of \$300 (inc GST). A 240 volt power supply may be required to power the equipment. In the event of a power outage, your services will not work unless you maintain a back-up battery. If you take up a Fibre to the Business service, you may not be able to move back to a copper service.

### HARDWARE

You may use your own modem or a Business Gateway can be provided - see Pricing Table. A \$19.95 P&H fee applies for Business Gateway delivery. The Business Gateway is pre-configured, customer self-installed and supports mobile broadband backup for Internet telephony calls when an eligible Commander IP Voice service is bundled on the same account. Please note that support is only available for Commander approved modems. For a list of approved modems, call Customer Service on 132 777.
